

Fugro & Atkins invites you to attend the Structural Integrity Assessment Seminar. Houston June 3, 2008

INVITATION

Date: June 3, 2008

Time: 09:00 – 13:00

Location: Fugro Building, Suite 100,
6100 Hillcroft Avenue,
Houston, TX 77081

RSVP: By 27th May 2008

(Please use the registration form enclosed)

**The seminar will include various
speakers from Fugro and Atkins and
a guest speaker**

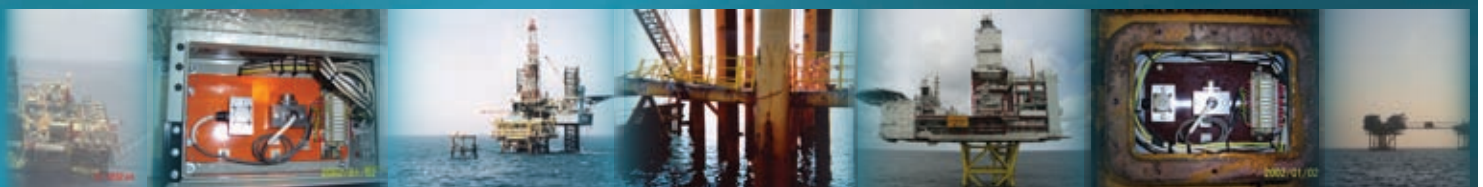

The number of ageing platforms is increasing globally and a substantial number are facing operation beyond their intended design life.

Structural integrity management is becoming an important part of the offshore engineer's role and it is becoming necessary for operators to perform an assessment of their structures on a regular basis.

This seminar will focus on four main areas:

- **Risk Based Inspection program.**
- **Assessment of foundation strength.**
- **Measurement of structural response.**
- **Re-evaluation of environmental loading.**
